- The data processing skills, compilation skills, communication skill are easily inculcated in this method.
- Learner gets in-depth knowledge of the subject he presented.
- This method built better social values and fault tolerance levels in the minds of learner.

Limitations of Seminar method

- Setting up of a seminar for every topic in the Text is not feasible.
- The subject area to be taught must be relevant to the theme of the seminar.
- The seminar themes must conform the learning experiences to be inculcated to the students.
- This method found fit for higher learning only.
- Implementation of this method for lower classes is cumbersome.
- Only matured and balanced minded teachers can make this method successful.
- The teacher must be resourceful (both in academic and administrative) in nature.
- Time management is some what difficult.
Unnecessary gossips, glitches among the participants may deteriorate the scope and objectives of seminar.

Passive observation without interaction also make seminar dull and worthless.

Seminar method – An example.

_topic in the Text book to be taught under seminar method: Water Pollution & its Preventive measures and awareness to public._

Teacher discusses about the topic of seminar and selects the organizing secretary for the Seminar. The organizing secretary prepares a panel of subject experts with the help of teacher. With the advice of Head master, organizing secretary and the teacher form a committee and select the Chair person for Technical Session and Speakers.

The organizing secretary classifies the seminar theme into sub-themes which are relevant with the learning experiences with the help of teacher and selected eminent students.

The organizing secretary prepares a circular for information about the Seminar theme and its sub-themes, Venue, Time, requirements etc.
